Dear Troy:

I want to thank you for your "Internal Prisons" presentation at the June 8, 2005 of the Phoenix MGMA. Your life work is very inspirational. You provided us a different perspective on the trials and tribulations of our lives, not just our work environments. Several of our members have taken the time to contact me to express their appreciation for your participation at the meeting. I would urge others to take the opportunity to benefit from what you have to offer; we definitely are looking to having you back in the future.

Cordially,

A handwritten signature in black ink that reads "Yolanda Martinez". The signature is fluid and cursive.
