Dear Troy:

Thank you for being one of our keynote speakers at this year's EFT Forum.

Even before you took the stage, there was great anticipation among our attendees to hear your story. They were not disappointed.

Your unique presentation style and inspirational story held everyone's attention throughout the entire time you were on the stage. From the very beginning, your story provided an excellent glimpse of the human condition and reminded us of our ability to meet the challenges of life with dignity and self respect. Not only did our attendees gain valuable information on how to protect their institutions, they also were inspired by the changes you have made in your life.

Again, thank you for your fascinating presentation and I look forward to working with you again at one of our future meetings.

Sincerely,

Daniel A. Kramer
