It is a pleasure to recommend Troy Evans to you as a highly effective presenter. Troy brings an important message to today's youth that will inspire all to wiser choices and perhaps prevent some from making decisions that could forever devastate them and their families.

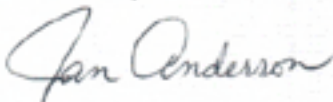

Earlier this year our school staff was looking for a motivational speaker for our junior high students when one of Troy's flyers caught my attention. After speaking with Troy, I was convinced that our students should not miss the opportunity to hear his message. I was not disappointed!

During Troy's recent presentation, our seventh and eighth grade students were captivated by his personal account of decisions he made as a teenager that led him on a path to Federal Prison. Not only did he bring a timely message of caution regarding choices and their consequences, but Troy also brought a story of perseverance, courage, and character. Our students were visibly moved by Troy's powerful presentation. They were ultimately encouraged by his message that they have the ability to achieve worthwhile goals and that education is a fundamental ingredient for success.

I encourage you to give Troy a call and consider bringing him and his powerful story to your students.

If I can be of assistance, please call.

Sincerely,

Jan Anderson  
Principal
